Greetings,

We are excited to announce a new Canvas course designed to support District Principals in administering the School LAND Trust (SLT) program. District principals are vital to ensuring School Community Councils (SCC) are properly formed and funds are used to address critical academic needs.

This comprehensive course provides essential training and resources across five modules:

- **Module 1: SLT Program History:** Learn about the trust's impact and the agencies supporting K-12 funding in Utah.
- **Module 2: Council Elections & Membership:** Understand requirements for overseeing elections and maintaining proper council structure, including the two-parent majority.
- **Module 3: Fall Requirements:** Review your role in program transparency, including submitting the Fall Requirements Form (due October 20th), Rules of Order, and website postings.
- **Module 4: Final Reports:** Get support preparing Final Reports that detail spending and academic outcomes aligned with your SLT Plan.
- **Module 5: SLT Plans & Amendments:** Learn how to develop a data-driven SLT Plan with your SCC, set measurable goals, and manage plan amendments.
